October 18, 2016

To whom it may concern:

Jordan Alexander served as a staff member at French Woods Festival for the 2016 summer season. French Woods is one of the largest training centers for the performing and visual arts for children and teenagers in the world. Our eighteen hundred campers and four hundred staff come from across the country and around the world. During our twelve-week seasons both campers and staff experience a program that is totally unique in the world of camping. Each person attending French Woods has a personalized schedule of activities tailored to their interests and abilities affording each individual the opportunity to receive the most from the camp's programs.

Jordan was a cabin counselor for a group of twelve campers and was responsible for their supervision during all non-activity periods. Jordan aided the campers with the selection of their activities, supervised both mealtimes and bedtimes and directed cabin cleanups and laundry.

Jordan worked in our visual arts department. Visual arts at French Woods is quite extensive and includes painting and drawing, ceramics, jewellery, tie dye, batik, dream catchers, silk screen, print making, photography, sculpture, woodworking and game design. Jordan worked primarily in Game Design and was well liked.

We hope that our relationship with him continues for years to come and wish him the best in his future endeavours.

Sincerely,

Beth Schaefer-Knauf,
Staff Director
French Woods Festival
